

Web Designer

Purpose & activities:

Interfaith Action is committed to widening its reach and accessibility via the internet, and is therefore looking to recruit a Web Design Volunteer to re-design and develop our website (www.interact-uk.org.uk). We currently use Dreamweaver as our web-management system and would like to continue using this, so familiarity with this software is desirable.

As the Web Design volunteer you will:

- Work with the Project Manager to identify what is required on the website (page by page)
- Design each page
- If required build the re-designed website

Skills / Experience required:

- Previous experience of designing websites
- Knowledge of CSS, HTML, and W3C Standards
- Knowledge and experience of using Adobe Suite
- Knowledge of PHP or ASP (desirable)

Benefits to volunteer:

Real experience of designing and developing a professional website

Support / training provided:

We have a professional Web Designer available to provide support as required. No training will be provided.

Location:

Home or office based.

If home-based some meetings at office in Kentish Town, NW5 (Northern Line , Rail or Overground transport links)

Availability:

To start as soon as possible, length of project will be decided with the Project Manager upon starting – dependent on your availability and time commitment.

To apply: please contact kat.luckock@interact-uk.org.uk or call on (020) 74 824020
